

BE AN EXPERT

Apexus Advanced 340B Operations Certificate Program

The Advanced 340B Operations Certificate Program is a separate Apexus offering that is not a part of the 340B Prime Vendor Program or otherwise associated with the Prime Vendor Agreement between HRSA and Apexus.

BECOME A 340B EXPERT

The Apexus Advanced 340B Certificate Program will empower you with tools, resources, and, most importantly, expertise to ensure that you are equipped with solutions to your 340B implementation obstacles. The program will help guide you—and subsequently your organization and 340B community—as we all work toward elevating the standard for program integrity in the 340B marketplace.

TAKE THE LEADERSHIP ROLE

The objective of the program is to award certificates to individuals who have completed the required training program and assessment through Apexus and have demonstrated accomplishment of the intended learning outcomes with the skill set that will support their particular role.

MOVE THE NEEDLE ON PROGRAM INTEGRITY AND COMPLIANCE

The Operations Certificate is beneficial for any individual who would like to pursue specialized training in 340B knowledge. The curriculum is tailored for stakeholders who are in high-impact positions regarding 340B implementation, including 340B managers or coordinators, pharmacy directors, and purchasers/buyers, as well as suppliers and consultants.

THE INDUSTRY STANDARD

Be a part of a unique community with access to comprehensive educational offerings, tools, and resources that include videos from leaders in the market, best-practice ideas for program operations, recommendations on policy-to-practice processes, and case studies based on situations from our contributors and reviewers who, combined, represent more than 100 years of 340B experience.

VALUE FOR THE INDIVIDUAL, VALUE FOR THE INSTITUTIONS

The Operations Certificate provides an opportunity to elevate your knowledge base in a consistent, measurable and validated way.

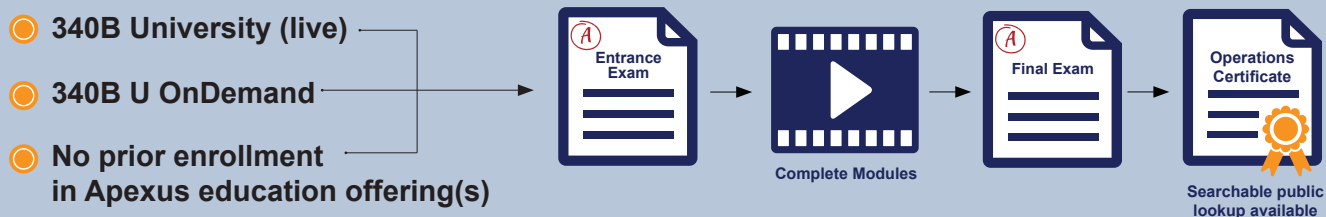

The program curriculum is composed of 24 modules. Each module will include:

1. Policy that governs 340B requirements for each topic.
2. Operational considerations when implementing those requirements.
3. Audit best practices to support compliant operations.

SAVINGS FOR PROVIDERS

Consider the value of being the expert on your team who can implement a compliant program that aligns with the mission of your institution and intent of the 340B Program. Think of all of the areas for potential cost avoidance!

OPERATIONS CERTIFICATE REQUIREMENTS

After passing the entrance exam, you will receive an email to register and pay for the Operations Certificate Program. The operations certificate will be awarded when all modules in the curriculum are completed and you successfully complete the comprehensive final exam.

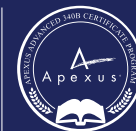

Maintenance of the certificate will require that you watch update module(s) and pass an exam related to the update module(s) every two years to renew your certificate.

OPERATIONS CERTIFICATE PROGRAM COSTS

Individual in 340B covered entity*—\$750

All others—\$1,250

**Discounts are available through these associations who recognize that creating an industry training standard for the 340B Drug Pricing Program is what will help drive program integrity and compliance. These associations support the Apexus Advanced 340B Operations Certificate Program in achieving these objectives.*
